102A Avenue Edmonton  
Edmonton AB T5J 3A3

Dear Wendy:

Re: Smart Cities Challenge – Letter of support

On behalf of the Edmonton Public Library (EPL), please accept this letter of support to the City of Edmonton in its proposal for the Smart Cities Challenge.

We fully support the City of Edmonton in its effort to facilitate Edmonton's Smart Cities Challenge proposal development and implementation. We believe that cities play a vital role in prospering community health.

The innovative solutions to Edmonton's most pressing health challenges have the capacity to greatly impact the mental, physical, social, and economic health of those who live, work and play in Edmonton and Canada.

Edmonton Public Library is excited about the opportunity to partner with the City of Edmonton. As Edmonton's largest lender of information our greatest passion is creating connections which is paralleled in the City of Edmonton's Smart Cities Challenge theme of increasing community and citizen connectedness.
